

Dyna-Max™

Pool/Spa Pumps
by Sta-Rite®

Dynamite power, maximum efficiency

More than three decades ago, Sta-Rite launched the first thermoplastic swimming pool pump. That innovative edge continues today, and has earned Sta-Rite its reputation as the industry's top manufacturer of high-quality pumps. The Dyna-Max™ pump has a proven track record and is featured in some of the world's finest pool installations. Professional pool builders prefer this pump for its power, efficient performance and ultra-quiet sound output.

- High-efficiency motor and superior hydraulic design deliver effortless performance, energy savings, and extended pump life.

- The extra-large trap holds more dirt, and the "clear-view" lid lets you check for debris without lifting a finger.
- Rugged construction and a motor rated for continuous duty make this pump an easy choice for years of reliable performance.
- Precision manufacturing of internal components and a specially designed sound-dampening base make pump operation extremely quiet.

Power your pool system with the proven performer:
Dyna-Max – the name says it all.

Dyna-Max™ Pool/Spa Pumps

It's so easy

A single twist of the wrist opens the "clear-view" trap lid – it's that fast!

A snap to service

Quick disconnect plumbing unions mean faster disassembly – service people love them!

Lower your electric bill

High-efficiency motor saves on electricity.

Low maintenance

6" extra-large capacity trap collects more debris, which means a lot less maintenance.

Engineered to perfection

Innovative hydraulic design moves more water with less effort, reducing operating costs.

Nobody does it better

Sta-Rite's reputation for top-of-the-line equipment is unrivaled in the pool industry. And we got there by gaining the confidence of professional builders, and ultimately satisfying pool owners. Each pump feature has been engineered to answer the needs of today's savvy buyer – high efficiency, low maintenance and reliability. We got it right on all counts.

Save even more money

Superior flow dynamics effortlessly move more water to help reduce operating costs. Dyna-Max™ sports a high-efficiency motor, which lowers electrical costs even more.

Easy maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket.

Simply empty the basket, re-attach the "clear-view" trap lid and twist it to the right.

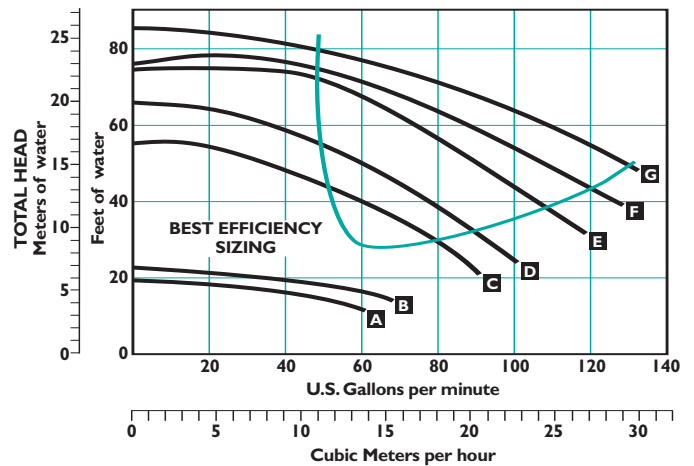

Built for the long haul

Only the best materials are used to build lasting quality into each pump. On the outside, Sta-Rite's exclusive thermoplastic composite resin weathers temperature extremes and will never corrode. On the inside, a heavy-duty shaft seal and impeller stand tough against harsh chemicals.

Performance Curves

Available in ¾ to 2½ HP, and single- and two-speed models.
