

JWP Series

Pumps for Aboveground Pools
by Sta-Rite®

Built for the long-run

Whether it's a new installation or part of an upgrade of your aboveground pool, Sta-Rite® has the perfect pump for the job. The JWP pump has the performance and power rating to handle virtually any assignment—powerful enough to handle small inground pools! JWP series pumps are made of Dura-Glas™, an exclusive composite resin formulated to stand tough against weather extremes and ultraviolet rays. With its proven track record, the JWP is preferred by professional builders for its performance, durability and ultra-quiet operation. We think you'll agree.

- Special feature prevents large debris from impeding water flow or locking up impeller.
- The extra-large trap holds more dirt, and the “clear-view” lid lets you check for debris without lifting a finger.
- Rugged construction and a motor rated for continuous duty make this pump an easy choice for delivering years of dependable service.
- Precision manufacturing of internal components and a smooth-running electric motor make pump operation extremely quiet.

For a pump with the power to go the distance, insist on JWP.

JWP Series Pool Pumps

So easy, so quick

An easy twist of the wrist opens the "clear-view" trap lid. It's that fast!

A breeze to service

Quick-disconnect plumbing unions (sold separately) allow faster disassembly.

Long-distance runner

Powerful, all-weather motor is designed for the toughest duty.

Filled to capacity

5" extra-large-capacity trap collects more dirt, which means a lot less maintenance.

Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs and provides quiet operation.

Nobody does it better

Sta-Rite's reputation for top-of-the-line equipment is unrivaled in the pool industry. And we got there by gaining the confidence of professional builders, and ultimately satisfying pool owners. Each pump feature has been engineered to answer the needs of today's savvy buyer—high performance, quiet operation, low maintenance and reliability. We got it right on all counts.

Great performance, great value

Superior flow dynamics effortlessly move more water, which lowers operating costs. The JWP pump is an economical performer and is considered one of the best values in the aboveground pump market.

Easy maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket.

Simply empty the basket, re-attach the "clear-view" trap lid and twist it to the right.

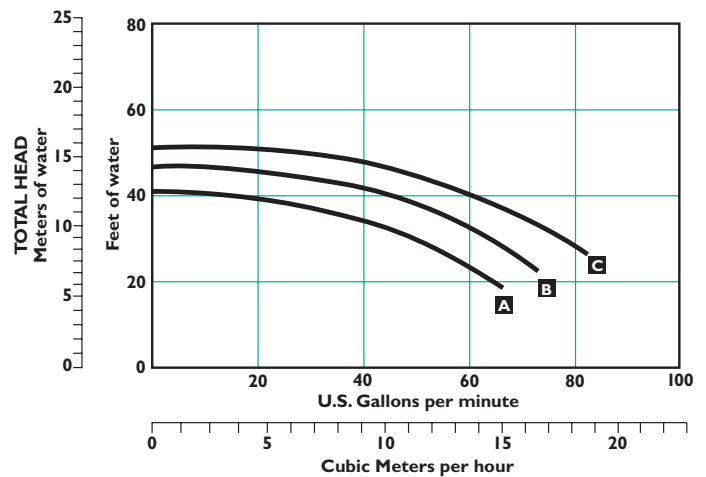

Built for the long-run

Only the best materials are used to build lasting quality into each pump. On the outside, Sta-Rite's exclusive thermoplastic composite resin weathers temperature extremes and will never corrode. On the inside, a heavy-duty shaft seal and impeller stand tough against harsh chemicals.

Performance Curves

Available in ¾ to 1½ HP, and single- and two-speed models.

KEY

A. JWPA5DL (¾ HP) B. JWPA5EL (1 HP) C. JWPA5FL (1½ HP)

One-year limited warranty. See warranty for details.
